PROFILE

Driven Architecture graduate of the 2+4 program at Drexel University. A quick learner interested in implementing innovative and creative techniques in designing inclusive, community-oriented projects.

OBJECTIVE

Seeking a civically minded, challenging role that prioritizes sustainability and community while providing opportunities to broaden my skills. I aim to help positively transform Philadelphia’s built environment.

SOFTWARE SKILLS

CAD	●●
Revit	●●●
Rhino	●●●●
ARCGIS Mapping	●●
Microsoft Suite	●●●●
Adobe	●●●●
- Photoshop	●●●
- Illustrator	●●●
- InDesign	●●●●
D5 Render	●●●●●
Unreal Engine	●●
Enscape / Lumion	●●●●
3-D Printing	●●●●●

PROFESSIONAL EXPERIENCE

Designer at WRT Planning + Design	NOV 2021 – MAR 2024
Drafted large-scale affordable mixed-use projects from proposal to 90% CDs. Researched and presented on biophilic design and advanced energy modeling for carbon-negative communities. Produced renderings across housing and education projects, including all seasons, lighting, and interior/exterior views.	
Project Manager/Designer at Philly Office Retail	SEP 2024 – PRESENT
Managed adaptive reuse and state-of-good-repair projects from design through construction. Coordinated architects, contractors, and consultants, oversaw budgets and schedules, led RFPs and negotiations, and presented updates to leadership	
Founding Member of RoTaCo (Round Table Collaborative)	

STRENGTHS

My strengths lie in early design and conceptual development—diagramming, rendering, and clearly conveying intent. I excel at communication and presentation, translating complex ideas into clear, compelling narratives. I’m most motivated when tackling constraint-heavy problems and most fulfilled when crafting creative, unique solutions.

CERTIFICATIONS / ACCOLADES:

- LEED Green Associate
- 2025 Pearson Prize Silver Medal recipient for best Drexel Architectural Thesis project.
- 1 test away from becoming a Registered Architect in the State of Pennsylvania.
